Shopping trolleys for children

Special children's trolleys make shopping fun again. For children and for parents! So it's not for nothing that many shops are now offering 'kidcars'. The children run straight to the trolleys and can't wait to start shopping.

For example, small children love the F2002, a shopping trolley with an inbuilt racing car. We developed this fun shopping trolley specially for parents with young children. The parents can shop undisturbed while their kids enjoy themselves in the brightly coloured racing cars. The inbuilt safety belt can be used to safely secure the children. The F2002 can be nested with other F2002s. Which is very practical.

In addition, the mini-shopping trolley, the CC Children's trolley, is extremely popular with younger age groups. The children can use this trolley to do their own shopping. Thanks to the colourful flag, parents never lose sight of their children.

Besides these standard models, we also manufacture customised children's trolleys. Ask your account manager to tell you more about the possible options.

Childrentrolley

Kidcar Red

Kidcar Green

Kidcar Blue

The babyseat, baghook en grip caps are delivered in the same color as the Kidcar body. Red, Green or Blue.

Also we offer the possibility to personalise your trolleys with the following options

- * Grip with your company logo
- * Comfort grips
- * Powdercoating
- * Moving ramp castors

Children trolleys can be powdercoated in various colors

Kidcar F 2002

Vroom-vroom, beep-beep! The Kidcar F2002 child shopping trolley is irresistible for small children. The Kidcar F2002 will help to attract parents with toddlers to your shop. DCR Europe developed this hard-wearing child shopping trolley in-house. The F2002 is available in four bright primary colours, such as Ferrari red and Jaguar green. The car component has a safety belt to prevent the child from falling out. The Kidcar F2002 is manufactured from plastic and high-gloss galvanised, chromated steel wire and complies with the European EN 1929 quality standard. The basket can be coated in your house colours. The hand-grips are available in 9 different colours. Various accessories are also available.

Child shopping trolley CC Children's Trolley

Catch them young! Children like nothing better than to explore your shop with their own shopping trolley, just like their parents. The CC Children's Trolley is a life-like miniature version of an adult-sized shopping trolley. When you stock the CC Children's Trolley, it will help to attract children and their parents to your shop.

Like all 'normal' shopping trolleys, this trolley is manufactured from high-gloss galvanised, chromated steel wire and has a transparent powder coating. The CC Children's Trolley complies with the strict European EN 1929 standard for shopping trolleys. Most of our customers also purchase the optional flagpole that is sold separately. Various types of coin locks and hand-grips in different colours are also available.

Trolley lenght in mm

	1	10	25
kidcar	1105	9115	
Childrentrolley	530	2105	4730

Help your customers to have an enjoyable shopping experience with smooth-rolling, accurately steering shopping trolleys. Such as the shopping trolleys from DCR Europe. Our trolleys have top-quality wheels and always go where you want them to go.

The standard wheels have a rubber tread and are fitted with precision ball-bearings so that they have a low rolling resistance. Available as fixed wheels and as caster wheels with sealed upper bearings. Soft plastic protective rings on the wheels and on the upper bearings protect the wheels against abrasion, dust and damage. A number of shopping trolley models have coloured plastic hubcaps as additional protection. The wheels are available in sizes of 100 mm or 125 mm

Euronorm 1929

The trolleys are produced and tested under the international quality guide for shopping trolleys EN 1929.

This guarantees you constant high quality products.
